INNOVATION ON THE MOVE Innovation in the road transport industry has always been about moving people and goods faster, more cheaply and more safely. That will never change. What is changing is how we deliver. And that is centred around digital, connected and automated services. There is a whole raft of issues: new technology, shifting business models, changing trade patterns and new fuels. We ...

While there are multiple breakthrough moves a company can adapt for business model innovation, leaders need to focus more on improving their skills in this area, for example by paying more attention to innovations in other industries. The potential to add business model innovation breakthroughs in a particular company is often largely untapped ...
